DIVISION OF BOILER, ELEVATOR AND AMUSEMENT DEVICE INSPECTION
220 FRENCH LANDING DRIVE
Nashville, TN 37243
615-741-2123

May 11, 2010

FLOOD DAMAGE NOTICE 2010

To all owners of elevators, escalators and handicap lifts:

Be aware that any company doing work on elevators, escalators or lifts in Tennessee must be a licensed contractor in this state. They must apply for a permit before work can be started. This ensures the owner that they get a safe and code compliant elevator, escalator or lift after the repairs are done. The scope of work to be done will be approved and inspected by this office.

There are out of state companies that might not know the rules and laws for this state concerning elevators, escalators or lifts. After they are gone the owner will be left with any problems the contractor might have created by not following the rules or codes. Of course, there are always people who scam customers in situations like this. This Department is here to aid the public through this disaster. We want to assure the public that elevators, escalators or lifts remain safe for all to ride, by issuing permits and performing follow up inspections.

Please make sure the company of your choice is licensed and has a permit through this office before work is done. This Department will work with you in your efforts to get your repairs complete and work through your problems as quickly as possible.

Thank you,

Ron Sidler
Chief Elevator Inspector
